

## ***UpdateStar Local Backup 4 creates your daily local backup***

***UpdateStar Local Backup 4 is the latest version upgrade in the portfolio of products of Berlin-based UpdateStar. The software not only copies the original files but also future changes made to the files and directories. The files are copied exactly and put on the target disk so that they can also be accessed using the Windows Explorer.***

Berlin, April 14, 2015 – UpdateStar, a leading German software product and services provider with more than 10 million monthly users, announces the release of *UpdateStar Local Backup 4*. The new version provides users with full backup capabilities as well as differential backup with backup of changed files, and synchronization.

Local Backup is intended for users who rarely create data backups, because it seems too complicated. The backup process can start automatically by connecting a backup device to the computer. This allows users to create backups exactly when they need it, for example immediately after importing photos and videos from a digital camera. The user interface is simple and intuitive and with a few clicks you can set up your backup schedule. Local Backup provides reliable protection against a loss of data due to accidental deletion or a virus attack.

### **Important features at a glance**

- Provides full backup, differential backup with backup of changed files, and synchronization
- Offers easy scheduling with backups carried out with new connections only, or on a daily/weekly basis
- Includes an event viewer to see logs of program-activities

### **Prices and trials**

*UpdateStar Local Backup 4* free trial downloads are available from the UpdateStar website at <http://www.updatestar.com>. The website also contains tips and tricks for using the program. UpdateStar Local Backup runs with Windows 8.1, Windows 8, Windows 7, and Vista. The recommended retail price for UpdateStar Local Backup (1 PC license) is US\$ 19.95 (upgrade license US\$ 14.95). A volume licensing program is available for corporate users.
